

LAIRA GREEN PRIMARY SCHOOL
Parent School Agreement for children to use the Internet and
E-Mail

Dear Parent/Guardian,

The World Wide Web (www) or the Internet provides a rich source of information from all over the world and provides an excellent resource for the school. To enable the children to use the Internet and E-Mail, the school's network provider has provided a filtering service that screens out undesirable sites, however I cannot guarantee 100% of all sites are filtered out completely.

We need to encourage pupils to use this technology responsibly and to further that we have produced a **Code of Conduct** when using this facility:

1. Pupils must not give out personal details over the Internet (name, address, telephone number, password or photography).
2. Pupils must seek approval from a member of staff before downloading or printing material from the Internet.
3. Pupils are expected to act responsibly at all times. This means the language they use and the material they use should be appropriate. Pupils encountering inappropriate material **must** inform a member of staff immediately.

LAIRA GREEN PRIMARY SCHOOL

I have read and agree to the above conditions of use concerning the Internet and E-Mail use by my son/daughter. I also expect to be informed by a member of staff if my child breaks any of the above conditions or if my child encounters inappropriate material as a result of using the Internet/E-Mail facility.
